

# Hvordan lagre søkene dine fra OVID-basene

1. I OVID-basene, velg «My workspace» i menyen på toppen av siden og logg inn på kontoen din.

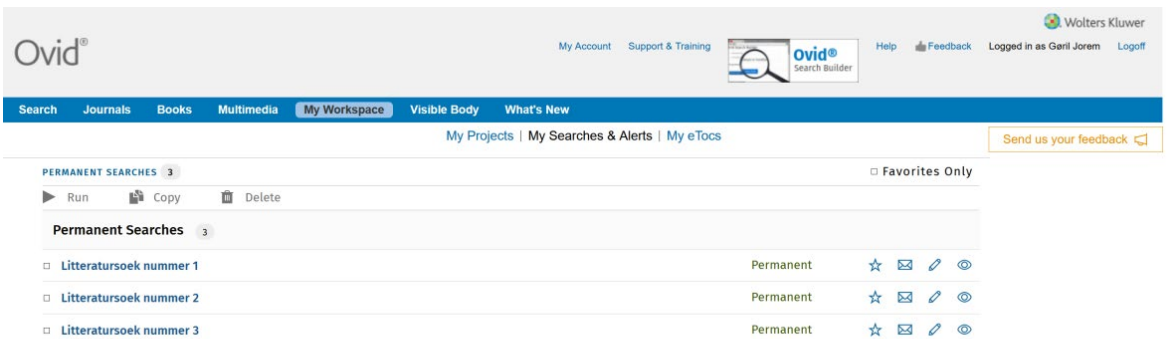

The screenshot shows the Ovid Search Builder interface. At the top, there is a navigation bar with the Ovid logo on the left and user account information on the right. Below the navigation bar is a menu with several options: Search, Journals, Books, Multimedia, My Workspace (highlighted with a red circle), Visible Body, and What's New. Underneath the menu is a section for Search History (0) with a table of search results. Below that is a search bar with a search button and an Expand Term Finder button. At the bottom, there are links for Basic Search, Find Citation, Search Tools, Search Fields, Advanced Search, and Multi-Field Search.

2. Gå til «My searches & alerts».

3. Du får her en oversikt over de lagrede søkene dine.

4. Trykk på tittelen på litteratursøket eller øyet til høyre for det søket du ønsker å lagre. Søkestrategien du får opp her må du klippe ut og lime inn i Word eller lignende verktøy. Lagre et egnet sted på maskinen din.

Set	
1.	autis*.mp.
2.	asperg*.mp.
3.	developmental disabilit*.mp.
4.	Developmental Disabilities/
5.	Autistic Disorder/
6.	kanner*.mp.
7.	Autism Spectrum Disorder/
8.	Asperger Syndrome/
9.	ASD.mp.
10.	ASC.mp.
11.	Child/
12.	child*.mp.
13.	Infant/

Dette blir en statisk liste over litteratursøket du har gjort, og kan dessverre ikke «kjøres på nytt» slik det er mulig i dag. Om du ønsker å oppdatere søket eller gjennomføre søket i andre baser, må du klippe og lime litteratursøket inn på nytt (og så lagre det igjen).
